**6th National Seminar
on
Ancient Indian Science
and Technology
(NSAIST-2018)**

17th February 2018

**Indian Institute of Technology
Kanpur**

About the Seminar

The National Seminar on Ancient Indian Science and Technology will strive to bridge the gap and create awareness towards ancient science and technology of the past and their utility in the current scenario. The objective is to use modern technology sustainably with inspiration drawn from the scientific and cultural heritage of the past Indian Civilization. Ancient Science and Technology is an everlasting source of intellectual resource and our ancestors have excelled in rational thinking. The seminar will highlight inspirational past technologies that have been metamorphosized hand-in-hand with Mother nature unlike current technologies that aim to conquer Mother nature to achieve ends. Protection of intellectual property of our ancestors will also be covered, and a re-look on present scientific culture vis-a-vis ancient scientific heritage will be discussed. This seminar will be deliberating on ancient mathematics, science, architecture and engineering, heritage and culture among the students, faculty members.

Purpose of the Seminar

- To create awareness about the need for exploring ancient Indian scientific philosophies.
- To resurrect the lost faith in our scientific culture & heritage.
- To explore and imbibe new ways and means to overcome of excessive exploitation of Mother nature armed with power of modern science and technology.
- To propagate the ethos of our ancient science and technologies.
- To encourage participants to carry out research in ancient Indian science and technologies.

Poster Presentation

There will be a poster presentation on ancient Indian science and technology. Interested persons have to send their paper in soft copy *via* an e-mail to iitkastg@gmail.com before **5th January 2018**. The paper must have paper title, abstract, introduction, discussion, conclusions and other sections along with references. For more detailed format, refer to iitkastg.weebly.com. Note that the posters selected by the editorial board will be presented in this seminar.
